

JEWELRY THAT ENHANCES HAND FUNCTION  
PROTECTS JOINTS REDUCING PAIN  
BEAUTIFULLY HANDCRAFTED JEWELRY

# SPLINTS BY EVABELLE JEWELRY

OFFERING BEAUTIFUL AND AMANZINGLY  
SUPPORTIVE RING SPLINTS

Our story started with our Jeweler, Fabiano, he's been in the jewelry business for over 20 years, making commercial jewelry for big brands, starting in his hometown in Italy and moving to the states 10 years ago.

Nine years ago, while continuing to work for big jewelry brands in New York City, he found out that his mom was suffering from EDS, and couldn't find splint solutions in Italy that help her joints while reducing her pain.

That's where our story started, Fabiano and his wife, Sharina, started to design splint solutions for Fabiano's mom, seeking help from Occupational Therapist that were kind enough to help them develop amazing splints, that not only look beautiful, they're amazingly supportive too. They decided to expand and offer their splints to a wider public.

*We're a small shop that is constantly evolving, every piece is 100% hand-made, custom made for each customer. We seek to build close relationships with every person that reach out to us, providing support and we're always so happy to help individuals to continue to live and do activities they love while wearing our splints.*
